

We're Smiling Behind Our Masks

Dr. Joseph Ward

Dr. Ward is an alumnus of Columbia University. He completed his orthopedic surgery residency at University of Michigan where he served as chief resident. Dr. Ward specializes in hip and knee replacement. During his fellowship training in Boston, he learned minimally invasive surgery techniques that allow his patients to avoid some of the traditional postoperative hip precautions. Dr. Ward finds tremendous joy in helping patients with arthritis to regain their mobility. In his spare time, he enjoys golf and running. He has 3 children with his wife, Claire.

Kylie joined the OSOC family this year from an orthopedic practice in Pittsburgh. She has stepped up to the task of both surgery scheduling and serving as Dr. Ward's medical assistant. Kylie will meet you in the office when you come for your appointment and will be able to help address your surgery scheduling concerns. In her spare time, Kylie enjoys traveling and playing golf.
